CAROLINA POWER & LIGHT COMPANY  
SHEARON HARRIS NUCLEAR POWER PLANT  
1986 - 900,000 KW - UNIT 1  
MISSILE SHIELD DOORS - CALCULATION ERRORS  
ITEM 187

Dear Mr. O'Reilly:

On September 20, 1984, Mr. N. J. Chiangi notified the NRC (Mr. A. Hardin) of a potentially reportable item per the provisions of 10CFR 50.55(e) and 10CFR Part 21. The NRC was informed that calculational errors were made by the vendor (W. J. Wooley Co.) which could have an impact upon the design and functional requirements of the missile shield doors.

An evaluation of this item is currently being performed by W. J. Wooley Company. CP&L is currently awaiting a response from the vendor concerning their evaluation of this item. It is projected that a final report on the reportability of this item will be issued by January 11, 1985.

Thank you for your consideration in this matter.

Very truly,

R. C. DeYoung  
General Manager  
Construction Assurance  
Shearon Harris Nuclear Power Plant
