DOCKET NO. 50-219

1.0 INTRODUCTION

By letter dated December 5, 1995, the GPU Nuclear Corporation (the licensee) submitted a request for changes to the Oyster Creek Nuclear Generating Station Technical Specifications (TS). The requested changes would revise the submittal date for the Annual Exposure Data Report bringing Oyster Creek into conformance with 10 CFR 20.2206 and relaxes an overly restrictive administrative requirement.

2.0 EVALUATION

The licensee proposes to revise the submittal date for the Annual Exposure Data Report covering the previous year, on or before April 30, of each year, from the current March 1, date. The April 30 date is in accordance with 10 CFR 20.2206. Therefore, the staff finds the administrative change acceptable.
