MEMORANDUM FOR: Darrell G. Eisenhut, Director
Division of Licensing, NRR

FROM: Robert F. Burnett, Director
Division of Safeguards, NMSS

SUBJECT: REPORT ON TURKEY POINT REGULATORY EFFECTIVENESS REVIEW

By our memorandum of July 27, 1983, above subject, we transmitted to you the results of our Turkey Point effectiveness review (including vital area validation findings) for NRR staff review and transmittal to the licensee.

I fully appreciate the need for various elements of NRR to carefully consider all aspects of such reports prior to forwarding them to licensees. In this instance, the on-site review was accomplished in May 1983. It would appear appropriate to expedite the processing of this report in view of this rather extended period which has elapsed. Although no significant problems were revealed, the concerns noted should be corrected on a timely basis. I would appreciate anything you could do to move this effort along.

Robert F. Burnett, Director
Division of Safeguards, NMSS
