MEMORANDUM FOR: Cecil O. Thomas, Chief  
Standardization & Special Projects Branch  
Division of Licensing, NRR

FROM: George W. McCorkle, Chief  
Power Reactor SG Licensing Branch  
Division of Safeguards, NMSS

SUBJECT: SURRY REGULATORY EFFECTIVENESS REVIEW

Referencing our telephone conversation of September 2, 1983, a Regulatory Effectiveness Review (RER) for the Surry Nuclear Power Plant has been scheduled for the week of September 19, 1983 to September 23, 1983. We would very much appreciate NRR representation in this effort, especially in respect to examining safety/safeguards issues. If you wish to have a representative from NRR participate, please notify Elizabeth Ten Eyck as soon as possible.

Region II personnel will be responsible for coordinating the RER with the licensee. Therefore, it is important that we have a full list of attendees to forward to Region II at the earliest possible date so that all of the necessary arrangements can be made with licensee personnel. In order to assure that no undue burden is placed upon the licensee, it would be desirable to know the identity of your representative by September 9, 1983.
