Gentlemen:

SUBJECT: NRC EXAMINATION REPORT NOS. 50-338/96-300 AND 50-339/96-300

This refers to the examinations administered during the period January 26-February 1, 1996. The purpose of the examinations was to verify the knowledges, skills, and abilities of facility employees who had applied for licenses to operate the North Anna Power Station. At the conclusion of the examination, the examinations and preliminary findings were discussed with those members of your staff identified in the NRC Examination Report, Enclosure 1.

A Simulator Facility Report is included in this report as Enclosure 2. A copy of the Facility Comments regarding the written examination is included in this report as Enclosure 3. The NRC Resolution of Facility Comments is included as Enclosure 4. A copy of the written examination questions and answer key, as noted in Enclosure 5, was provided to members of your training staff at the conclusion of the examination.

In April 1995, 11 candidates from your facility participated in the Generic Fundamentals Examination. Of the 11 examined, all passed for a 100 percent pass rate.

Within the scope of the examination, cited violations or deviations were not identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Sincerely,

ORIGINAL SIGNED BY T. A. PEEBLES

Thomas A. Peebles, Chief
