GPU Nuclear Corporation
ATTN: Mr. Henry D. Hukill
Vice President and Director, TMI-1
P.O. Box 480
Middletown, Pennsylvania 17057

Gentlemen:

We have received copies of the following applications which were filed with the Office of Nuclear Reactor Regulation (ONRR) for review in connection with the Three Mile Nuclear Station Unit No. 1. A Class II fee (\$1,200) was remitted with each of these applications pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

1. A February 9, 1984 application (Technical Specification Change Request No. 137) relating to Reactor Coolant Vents.
2. A June 13, 1984 application (Technical Specification Change Request No. 114, Revision 1) relating to installation of increased range post accident monitors.

Based on information provided by the ONRR staff as the result of their final reviews of your applications, it has been determined that:

1. A Class III fee (\$4,000) is appropriate for Item 1 above since the review involved consideration of a single safety issue. Therefore, an additional sum of \$2,800 is due for this application. This application was approved by Amendment No. 97 on June 21, 1984.
2. A refund of \$1,200 is appropriate for Item 2 since this application was considered as being supplemental to your January 5, 1983 application for which a Class II fee (\$1,200) was also remitted. This application was approved by Amendment No. 100 on October 1, 1984.
