

FEB 22 1982

Docket No. 50-331

Iowa Electric Light and Power Company

ATTN: Mr. Larry D. Root

Assistant Vice President

Nuclear Generation

P.O. Box 351

Cedar Rapids, Iowa 52406

Dear Mr. Root:

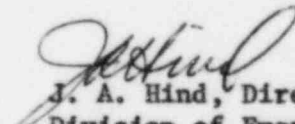

Subject: Iowa Electric Light and Power Company Letter Dated  
February 9, 1982 (LDR-82-028)

We have reviewed your request for a waiver of part of the training for the group of applicants who are to be examined at the senior operator level during the week of June 21, 1982. We will grant a waiver for the control room shift training with the following stipulations:

- 1) The license applications for each of the individuals will specify the areas of training not completed including the number of hours or weeks needed to complete the training.
- 2) We receive a schedule of when the training will be completed.

Based on receiving the above information with the applications and assuming the applicants meet all other requirements specified in the regulation we will administer the examinations as scheduled. Licenses for those applicants who had not completed the training prior to the examination will not be processed until we receive confirmation, in writing, that the training has been completed. This will not delay the processing of those applicants who had completed the training prior to the administration of the examination.

Sincerely,

  
J. A. Hind, Director  
Division of Emergency Preparedness  
and Operational Support
