Gentlemen:

SUBJECT: REPORT NOS. 50-250/83-41 AND 50-251/83-40

On December 3, 1983 - January 6, 1984, the NRC inspected activities authorized by NRC Operating License Nos. DPR-31 and DPR-41 for your Turkey Point facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

Additionally, the enclosed report contains further examples of Violations A and B transmitted to you in Inspection Report Nos. 50-250/83-38 and 50-251/83-38. Consequently, your response should describe those particular actions taken to improve the effectiveness of your program. As previously scheduled, we will be meeting with you in our office on February 21, 1984, to discuss your corrective actions on these and other inspection findings.

In accordance with 10 CFR 2.790(a), a copy of this letter, its enclosures, and your reply will be placed in NRC's Public Document Room upon completion of our evaluation of the reply. If you wish to withhold information contained therein, please notify this office by telephone and include a written application to withhold information in your response. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.
