Docket Nos. 50-369 and 50-370  
Physical Security Plan, Revision 46

Gentlemen:

As required by 10 CFR 50.54(p), enclosed are four copies of Revision 46 to the McGuire Nuclear Station Physical Security Plan that includes replacement of off-site T. LEA communications equipment, implementation of the Containment Access Area for Unit 2, clarification of the administrative controls for mechanical locks, deletion of the T. LEA footnote in Chapter 14 and various editorial changes. The enclosed Synopsis of Changes details the specific text changes. These changes do not decrease the effectiveness of the McGuire Nuclear Station Physical Security Plan.

In addition, Revision 46 is a complete Plan submittal that uses a different type style. The enclosed Explanation of Complete Plan Submittal addresses the type style change.

Since Revision 46 details features of the McGuire Nuclear Station security system, request Revision 46 be withheld from public disclosure pursuant to 10 CFR 73.21.

Very Truly Yours,

T. C. McMeekin
