

DEC 24 1984

Docket No. 50-440

Docket No. 50-441

The Cleveland Electric Illuminating  
Company

ATTN: Mr. Murray R. Edelman

Vice President

Nuclear Group

Post Office Box 5000

Cleveland, OH 44101

Gentlemen:

We have reviewed your letter of November 13, 1984, which provided information relative to the additional training received by the first Perry Nuclear Power Plant Cold License Class.

The additional training described in your letter appears adequate and therefore we have determined that the group of cold applicants scheduled for oral examinations in February and May will not have to repeat the written examination. Any candidate in either of these two groups who fails the oral examination will be required to retake the complete examination upon reapplication. In addition if less than 60% of these candidates pass the oral examination the additional training program will be considered unsatisfactory and it will be necessary for you to correct any generic deficiencies revealed by the examination before we will issue licenses to this group of candidates.

Cleveland Electric Illuminating  
Company
