This refers to the routine safety inspection conducted by J. E. Hyder, our contractor, and K. R. Ridgway of our office on October 22-24, 1984, of activities authorized by NRC Operating License No. R-114 and to the discussion of our findings with Dr. B. W. In addition to the routine inspection of your licensed activities, this inspection served to introduce James Hyder of the Los Alamos National Laboratory, which has contracted with our office to provide nonpower reactor inspection services.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.
