Terry Sensus called on 7/6 to request an extension until Aug 11 from the July 11 due date regarding the security issues. I told him ok after hearing his reasons for delay. Bottom line is even though they had already investigated prior to referral, GPUN directed a complete reinvestigation. Interviews are still ongoing. The investigator John Wilson reports making progress and has not to date found out anything that was a problem.

I told Terry Sensus if we had a problem we would call them back.
