Gentlemen:

This refers to the inspection conducted by L. A. Yandell of this office during the period November 1-30, 1984, of activities authorized by NRC Operating License DPR-40 for Fort Calhoun Station, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operational safety verification, plant shutdown, surveillance testing, maintenance activities, and followup of IE Bulletins. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By
D. M. Hunnicutt
