In the Matter of  
LOUISIANA POWER AND LIGHT COMPANY  
(Waterford Steam Electric Station, Unit 3)  
Docket No. 50-382 - OL

Dear Appeal Board Members:

On December 17, 1984, I submitted for filing the NRC Staff's response to ALAB-786, including the partially executed "Affidavit of Morris Reich, Charles A. Miller, and Carl J. Costantino" ("BNL Affidavit"), together with "Attachment 1" thereto.

Enclosed herewith is a fully executed copy of the BNL Affidavit, which is otherwise identical to the BNL Affidavit filed on December 17, 1984. In addition, enclosed herewith are two pages which were inadvertently omitted from Attachment 1 to that affidavit, in the filing of December 17, 1984; these should be inserted in your copies of Attachment 1, as follows:

- (1) Insert the "Table of Contents" as page 1 of Attachment 1; and
- (2) Insert Fig. 1, entitled "Comparison of Moments Computed by HEA and EBASCO for Dead Load Case," following page F-4 of Attachment 1.

Sincerely,

*Sherwin E. Turk*
