May 28, 1992

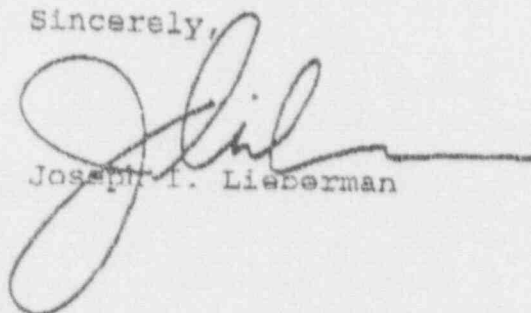

The Honorable Ivan Selin
Chairman
Nuclear Regulatory Commission
Washington, DC 20555

Dear Commissioner Selin:

I have been contacted today by one of my constituents, Mary Ellen Marucci, who is in the process of filing papers requesting a public hearing concerning a proposed design/configuration change at Millstone 2. The change was noticed by the Nuclear Regulatory Commission in the Federal Register of April 28, 1992. My constituent believes that this change has the potential for significant impacts on public health and the environment.

If the papers requesting a hearing have not in fact been filed yet, my constituent has requested that an extension of time for filing these papers be granted. I would appreciate if you would give these requests your full consideration.

Sincerely,

Joseph I. Lieberman
