Dear Mr. Woolever:

Subject: Documentation of Updated Meteorological Data

Enclosed is a summary of our September 24, 1984 meeting to discuss differences in dose calculations.

Subsequent to the meeting, on September 26, 1984, you submitted an updated meteorological tape to be used in calculating a new X/Q value. In addition to your transmittal letter, you should confirm the discrepancy between the updated tape and the tape previously submitted to the staff. Information concerning the methodology and equipment used to machine-digitize the data is needed.

Changing any of the parameters used in calculating X/Q will require formal documentation of the change, and a justification as to why.

Sincerely,
