NRC Docket Nos. 50-277 and 50-278

R.E. Ginna Nuclear Power Plant  
Renewed Facility Operating License No. DPR-18  
NRC Docket No. 50-244

Subject: Withdrawal of Relief Request for Alternative Frequency to Supplemental Indication Requirements of 10 CFR 50.55a(b)(3)(xi)

Reference: Letter from D. Murray (Exelon Generation Company, LLC) to U.S. Nuclear Regulatory Commission, "Relief Request for Alternative Frequency to Supplemental Indication Requirements of 10 CFR 50.55a(b)(3)(xi)," dated February 28, 2020 (ML20059P100)

On February 28, 2020 (Reference), Exelon Generation Company, LLC, (EGC) requested NRC approval of a relief request for Braidwood Station (BRW), Units 1 and 2; Calvert Cliffs Nuclear Power Plant (CCNPP), Units 1 and 2; Clinton Power Station (CPS), Unit 1; Limerick Generating Station (LGS), Units 1 and 2; Nine Mile Point Nuclear Station (NMP), Units 1 and 2; Peach Bottom Atomic Power Station (PBAPS), Units 2 and 3; and R.E. Ginna Nuclear Power Plant (GIN). The proposed relief request would allow an alternative to perform supplemental indication testing that satisfies 10 CFR 50.55a(b)(3)(xi) and the American Society of Mechanical Engineers (ASME) Code for Operation and Maintenance of Nuclear Power Plants (OM Code) – 2012 Edition, paragraph ISTC-3700, "Position Indication Testing."

In light of discussion held with the NRC on April 1, 2020, EGC has elected to withdraw the proposed relief request.

There are no regulatory commitments contained within this letter. Should you have any questions concerning this letter, please contact Ms. Lisa Zurawski at (630) 657-2816.

Respectfully,

Dwi Murray  
Sr. Manager - Licensing  
Exelon Generation Company, LLC
