REFERENCE: Letter to Rochester Gas and Electric (Mecredy) from NRC  
 (Johnson), dated June 30, 1992, "Review of Response to

The above referenced letter requests Rochester Gas and Electric Corporation (RG&E) to update their IPEEE plans to make them consistent with approaches provided in NUREG-1407, as being acceptable for the examination requested by G.L. 88-20, Supplement 4, and forward them to the NRC within 120 days of the date of the letter.
