Dear Mr. Shelton:

SUBJECT: SAFETY EVALUATION OF THE DAVIS-BESSE NUCLEAR POWER STATION  
UNIT NO. 1, STATION BLACKOUT RULE 10 CFR 50.63 (TAC NO. M68536)

By letter dated March 7, 1991, the NRC staff provided to you its safety evaluation (SE) regarding your actions to implement the station blackout rule at the Davis-Besse Nuclear Power Station. That SE contained six NRC staff recommendations that you were to evaluate; however, you did not have to submit your evaluations to the NRC. Subsequently, the NRC staff changed its position and requested by letter dated February 20, 1992, that you submit your evaluations of the NRC staff recommendations.

By letter dated March 31, 1992, you submitted your evaluations of the NRC staff recommendations. The NRC staff has reviewed your evaluations and finds them to be acceptable (see enclosure). Contact me if you have any questions.

Sincerely,

Original Signed By:  
J. B. Hopkins
