

OFF. 5/20/92

June 23, 1992

Florida Power and Light Company
ATTN: Mr. M. P. Beard, Jr., Senior Vice
President, Nuclear Operations
3201 Thirty-fourth Street South
P. O. Box 14042
St. Petersburg, FL 33733

Gentlemen:

SUBJECT: CRYSTAL RIVER NUCLEAR PLANT EXAMINATION REPORT NO. 50-302/92-300

This refers to the Nuclear Regulatory Commission (NRC) initial examinations led by R. Baldwin during the week of May 26, 1992. These examinations were administered to employees of your company who had applied for licenses to operate your Crystal River 3 Nuclear Plant. At the conclusion of the examination, preliminary findings were discussed with those members of your staff identified in the Examination Report, Enclosure 1.

A Simulator Fidelity Report is included as Enclosure 2. Enclosure 3 is a copy of the facility comments regarding the written examination. The NRC Resolution of Facility Comments is included as Enclosure 4. A copy of the written examination questions and answer key, as noted in Enclosure 5, was provided to members of the facility's training staff at the conclusion of the exam.

Your attention is directed to paragraph 4 of this report which details efforts of the Crystal River training staff and licensing staff in resolving procedural as well as technical specification interpretations.

The Generic Fundamental Examination Section (GFES) results for the last Crystal River examination were as follows. In February 1992, one candidate was examined and passed this portion of the examination for a 100 percent success rate.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this report and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

(Original signed by L. L. Lawyer for)

Thomas A. Peebles, Chief
Operations Branch
Division of Reactor Safety
