Docket No. 50-441

The Cleveland Electric Illuminating  
Company

ATTN: Mr. Murray R. Edelman

Vice President

Nuclear Group

Post Office Box 5000

Cleveland, OH 44101

Gentlemen:

Thank you for your letter of October 3, 1984, which provided (1) additional information regarding your earlier submittal of June 2, 1983, and (2) your submittal of changes since June 2, 1983.

As a result of our review, we identified that your submittals of changes did not appear to be timely. The Code of Federal Regulations, Title 10, Part 50.55(f) requires that changes that do not reduce commitments must be submitted to the NRC within 90 days. Members of our respective staffs discussed this matter on December 18, 1984, and reached a mutual understanding regarding future submittals.

Your revised program, effective July 3, 1984, continues to satisfy the requirements of 10 CFR 50, Appendix B and is therefore acceptable.

Please contact Mr. F. Hawkins of my staff (312-790-5555) with any questions you have regarding this matter.

Sincerely,

R. L. Spessard, Director  
Division of Reactor Safety
