Dear Mr. Perry:

This refers to the visit conducted by Messrs. J. Belanger and G. Pirtle of this office and Mr. R. Skelton of NRR/Reactor Safeguards Branch on June 26, 1992, at the Clinton Nuclear Power Plant.

The purpose of this visit was to discuss proposed security modifications and to discuss proposed changes to the site security plan. The visit was not an inspection to determine the adequacy of security measures or to determine compliance with existing commitments.

Based upon discussions with your staff, we understand that a revision to the security plan, or an addendum to the security plan, will be submitted to describe the nature and timeframe of the security-related modifications and the compensatory measures that will be implemented during that project. As discussed with your staff, the security plan revision or addendum should be sent to us within 30 days after receipt of this letter to allow adequate time for our review. The security plan revision will address an area which is exempt from public disclosure in accordance with 10 CFR 73.21. Therefore, the information must be handled and protected in accordance with the provisions of 10 CFR 73.21.

The response requested by this letter is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
