JUL 9 1992

Docket No. 50-443

Mr. T. C. Feigenbaum
Senior Vice President and
Chief Nuclear Officer
North Atlantic Energy Service
Corporation
Post Office Box 300
Seabrook, New Hampshire 03874

Dear Mr. Feigenbaum:

SUBJECT: INSPECTION REPORT NO. ^{50-443/92-12}
~~50-271/92-12~~

This letter refers to the safety inspection conducted by Mr. P. Drysdale of this office from June 15 - 19, 1992, at the Seabrook Nuclear Power Station, in Seabrook, New Hampshire, of activities authorized by NRC License No. NPF-86 and to the discussions of our findings held by Mr. Drysdale with Mr. B. Drawbridge and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the Inspection Report enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

The inspection determined that the corrective actions that you have taken were adequate to address deficiencies and program weaknesses identified during the special Maintenance Team Inspection conducted at Seabrook in early 1991.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed by

Lee H. Bettenhausen, Chief
Operations Branch
Division of Reactor Safety

Enclosure: NRC Region I Inspection Report No.
50-271/92-12
