JAN 16 1985

Duke Power Company  
ATTN: Mr. H. B. Tucker, Vice President  
Nuclear Production Department  
422 South Church Street  
Charlotte, NC 28242

Gentlemen:

SUBJECT: REPORT NOS. 50-269/84-30, 50-270/84-29 AND 50-287/84-32

In the subject report, our Notice of Violation transmitted one Severity Level V violation with two examples. The assigned severity level for the noted violation should have been reported as Severity Level IV (Supplement IV). In addition, the "Details" of NRC Inspection Report Nos. 50-269/84-30, 50-270/84-29 and 50-287/84-32 list a second violation identified by numbers 50-269/84-30-02, 50-270/84-29-02 and 50-287/84-32-02. To correct this inconsistency, the Notice of Violation has been corrected to agree with the report details. Enclosed are the original pages and the corrected pages of the subject Notice of Violation. Please substitute the corrected pages in your copy of NRC Report Nos. 50-269/84-30, 50-270/84-29, and 50-287/84-32. Dates of the required responses are based on the issuance date of this corrected Notice of Violation.

We regret any inconvenience these corrections may have caused you.

Sincerely,

Original Signed by  
John A. Olshinski

John A. Olshinski, Director  
Division of Reactor Projects
