Dear Mr. Denton:

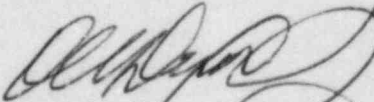

In a letter dated August 1, 1984, South Carolina Electric and Gas Company (SCE&G) transmitted revision 1 of Gilbert Associates, Inc. (GAI) Report 2364, "Control of Heavy Loads at Virgil C. Summer Nuclear Station." Section 2.0 of the Report identified items for which further action was required.

This submittal is SCE&G's final response to NUREG 0612, "Control of Heavy Loads at Nuclear Power Plants."
