Gentlemen:

Tennessee Valley Authority) Docket Nos. 50-327
50-328

SEQUOYAH NUCLEAR PLANT (SQN) - TECHNICAL SPECIFICATION (TS) CHANGE 92-06,
"ADMINISTRATIVE CHANGES TO SECTION 6.0"

In a letter dated May 28, 1992, TVA submitted SQN's TS Change Request 92-06. Among other changes, pages 6-5 for both units 1 and 2 included a position title change in Section 6.2.3.4 from the Manager of Nuclear Managers Review Group to the Manager of Nuclear Reviews. Since that time, an additional change to the title has occurred. That position title is Manager, Nuclear Experience Review/Independent Safety Engineering. The organizational structure and reporting relationship has not changed from that described in the May 28, 1992 letter or the TVA Organization Topical Report submitted to NRC on April 17, 1992.

The justification and significant hazards evaluation provided in the May 28 request remain valid with this title change. All other changes in that submittal remain as submitted.

Marked copies of pages 6-5 for both units are enclosed.
