Gentlemen:

SUBJECT: ARKANSAS NUCLEAR ONE UNIT 2 (ANO2) REQUALIFICATION EXAMINATION
REPORT NO. 50-368/OL 92-01

During the weeks of June 1 and June 8, 1992, NRC administered requalification examinations to 16 licensed operators comprising 4 crews. Fifteen operators and all 4 crews passed the examinations. One senior reactor operator failed the operating examination. The purpose of these examinations was to evaluate the effectiveness of the ANO2 requalification training program in maintaining the competency and currency of licensed operators as well as satisfying the requirement for renewal of licenses of the individuals examined. The requalification training program was evaluated as satisfactory in accordance with NUREG-1021, "Operator Licensing Examiner Standards," Revision 6, Section 601.

On June 2, 1992, one senior reactor operator applicant was given a complete operating examination. The operator passed the examination and the appropriate license was issued.

In accordance with 10 CFR Part 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

A. Bill Beach, Director
Division of Reactor Projects
