Enclosed is the Office of Nuclear Material Safety and Safeguards (NMSS) input to the Decommissioning Order for the Fort St. Vrain (FSV) Nuclear Generating Station. As part of our review, we evaluated the licensee's Decommissioning Plan and responses to staff questions.

As a result of NMSS's review and evaluation of all the information provided by the licensee in support of the FSV decommissioning, the staff produced the enclosed Safety Evaluation Report as input to the anticipated Order authorizing decommissioning.

If you have any questions related to our input for the order authorizing the decommissioning of the Fort St. Vrain, you may direct them to Larry Pittiglio of my staff at 504-3438.
