Gentlemen:

SUBJECT: EXAMINATION REPORT NO. 50-445/OL 92-01; 50-446/OL 92-01

During the weeks of June 22 and 29, 1992, NRC administered examinations to 20 employees of your company who had applied for licenses to operate the Comanche Peak Steam Electric Station, facility. All 20 applicants passed all parts of these examinations and have been issued the appropriate licenses.

This is the second NRC administered examination set for an initial license class at your facility with a 100 percent pass rate; a repeat performance from last year's examinations. Given the large number of applicants, it is evident your training and applicant screening process has continued to improve and more effectively prepare applicants for NRC examinations.

In accordance with 10 CFR Part 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

A. Bill Beach, Director
Division of Reactor Projects
