JUN 18 1992

St. Lucie County  
ATTN: Mr. Tom Kindred  
Acting County Administrator  
2300 Virginia Avenue  
Ft. Pierce, FL 34982

Dear Mr. Kindred:

As you may know, the Nuclear Regulatory Commission (NRC) periodically evaluates the effectiveness of its licensees through a program called the Systematic Assessment of Licensee Performance (SALP). Through this program, we critically review and evaluate our licensees performance in the following major categories: Plant Operations, Radiological Controls, Maintenance/Surveillance, Emergency Preparedness, Security, Engineering/Technical Support, and Safety Assessment/Quality Verification.

On June 30, 1992, representatives of the NRC will present its findings to the management of Florida Power and Light Company for the SALP which was recently conducted relative to the St. Lucie nuclear plant. Subsequent to this meeting, and in the interest of fostering positive communications, we would be happy to meet with you and other members of your staff, as you deem appropriate, to discuss matters of mutual interest.

This SALP meeting is scheduled to be conducted at 10.00 a.m., at the St. Lucie facility. Your schedule permitting, we look forward to meeting with you at that time. In the interim, please do not hesitate to contact me directly or other members of my staff if we can be of further assistance to you.

Sincerely,

Original Signed By:
