(10 CFR 2.790 (a))

JUL 12 1988

Docket Nos. 50-329; 50-330

AMS No. R111-83-A-0140

[Redacted]

Dear [Redacted]

On [Redacted] you furnished the U. S. Nuclear Regulatory Commission with information concerning possible irregularities in the quality assurance program of the Zack Company at the Midland Nuclear Power Plant. The Nuclear Regulatory Commission's Region III Office processed your information as an allegation, and a copy of the Inspection Report (50-329/83-08; 50-330/83-08) discussing the technical aspects of your concerns was mailed to you on June 29, 1984. Your one remaining concern, that [Redacted] was forwarded to the U. S. Nuclear Regulatory Commission's Office of Investigations for investigative followup.

The purpose of this letter is to inform you that the Office of Investigations has administratively closed the investigation due to a lack of investigator resources. As previously stated, the technical issues were examined by the Nuclear Regulatory Commission's Region III Office and a copy of the report was provided to you in the correspondence described in the preceding paragraph.

Thank you for bringing this matter to our attention.

Sincerely,

Original signed by
