JERSEY CENTRAL POWER AND LIGHT COMPANY (OYSTER CREEK)
DOCKET NO. 50-219

The enclosed summary report, which compiles the results of our inspection effort related to the Oyster Creek pressure vessel repair program, is forwarded for information. The significant results were discussed promptly with concerned regulatory personnel as information was developed and was summarized in periodic status reports.

As a result of this inspection effort, Compliance concluded that the detected defects were repaired in accordance with the amended application and that the repairs met applicable code requirements.
