Gentlemen:

We have received the following applications which were filed with the Office of Nuclear Reactor Regulation (ONRR) for review in connection with the Peach Bottom Atomic Power Station Unit Nos. 2 and 3:

1. An October 9, 1984 application for Technical Specification changes relating to control and instrumentation systems.
2. A December 19, 1984 request for exemption from certain schedular requirements of 10 CFR 50, Appendix R.

Since your applications were filed after the June 20, 1984 effective date of the revision to 10 CFR 170 on fees, they are subject to the provisions of the revised rule. This rule requires licensees to remit an application fee of \$150 with each application for license amendment, relief, exemption and other request. Therefore, it is requested that your Company remit the required application fees of \$300 for your October 9 and December 19 requests. Your Company will be billed for any additional costs for the review of your applications in accordance with 10 CFR 170.12(c) and 170.21.

The ONRR staff has informed us that they do not view your October 9, 1984 application as being supplemental to your February 11, 1982 application since that portion of the February 11, 1982 application relating to NUREG-0737 Item II.K.3.13 was approved by Amendment Nos. 100 and 102 on July 2, 1984. They have further informed us that the February 11, 1982 application was filed in response to Generic Letter No. 83-02 whereas the October 9, 1984 application was filed in response to Generic Letter No. 83-36.

Sincerely,
