Dear Mr. Edelman:

Subject: Perry Nuclear Power Plant Technical Specifications (First Draft)

Enclosed is a copy of the staff's first draft of the Perry Nuclear Power Plant Technical Specifications. This first draft is based on your July 31, 1984 and January 4, 1985 submittals and the results of the working meeting in Bethesda with members of your staff during the week of January 7, 1985. This draft document will be the basis for a site visit and meeting the week of February 4, 1985 to discuss areas where additional information may be required to ensure that the final plant technical specifications are documented in the FSAR and reflect the "as-built" plant design.

If you desire further discussion on this topic please contact the Project Manager, John Stefano, on (301) 492-7037.

Sincerely,
