

February 4, 1985

Ms. Mary Stephens
Nuclear Awareness Network
1347-1/2 Massachusetts
Lawrence, Kansas 66044

Dear Ms. Stephens:

During conversations with Nuclear Regulatory Commission representatives over the past several months, you have indicated that you have information pertinent to construction activities at the Wolf Creek Generating Station. However, I understand that you have steadfastly maintained that you were not in a position to pass the information on to us. This is true even though we asked for the information each time you raised the issue as well as during a number of follow-up telephone calls and during a personal visit by L. E. Martin of my staff on January 23, 1985.

It is our continued desire to promptly address any safety-related implications that may be contained in the information or allegations that you may have. We again solicit your cooperation in providing such information to Region IV in a timely manner. You may call collect either R. P. Denise (817) 860-8106 or L. E. Martin (817) 860-8153.

Sincerely,

ORIGINAL SIGNED BY
