Gentlemen:

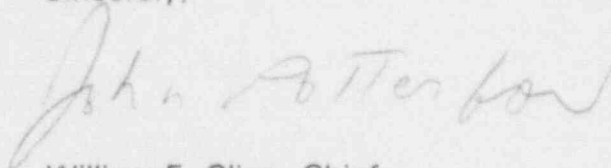

SUBJECT: V. C. SUMMER EMERGENCY PLAN, REV. 31

We have completed our review of changes incorporated as Revision 31 and justification documentation to support the requested changes.

Our review indicated that the changes meet the planning standards of 10 CFR 50.47(b), the requirements of Appendix E to 10 CFR Part 50, and Appendix 1 of NUREG-0654. However, data processing errors were noted and discussed on May 20, 1992 with members of your staff for resolution to prevent any inconsistencies between the station Plan and State/local Plans. Based on the discussions, a member of your staff indicated that the errors noted in Sections 5.0 (Organizational Control of Emergencies) and 6.0 (Emergency Measures) will be corrected in the next Plan revision.

If your understanding is different, please advise this office immediately. Should there be further questions or discussions regarding this matter, please contact Mr. William H. Rankin of our staff at 404-331-5618.

Sincerely,

William E. Cline, Chief
Radiological Protection and
Emergency Preparedness Branch
Division of Radiation Safety
and Safeguards
