SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
 DOCKET NOS. 30-445 AND 50-446
 TRANSMITTAL OF FIRST HALF 1992 FITNESS-FOR-DUTY
 PROGRAM PERFORMANCE DATA

Gentlemen:

The CPSES Fitness-For-Duty Program Performance Data for the period of January 1, 1992 through June 30, 1992 are enclosed. The data required by 10 CFR 26.71(d) are provided on a standard form with the exception of the summary of management actions and list of events reported, which are provided on a separate page titled "Summary of Management Actions." If there are any questions, please contact James Brown or Hollis Hutchison at (817) 897-8912 or (817) 897-8940, respectively.

Sincerely,

William J. Cahill, Jr.
 William J. Cahill, Jr.

COMANCHE PEAK STEAM ELECTRIC STATION
FITNESS FOR DUTY

Summary of Management Actions

Six Months Ending June 30, 1992

TU Electric was informed on January 14, 1992 that the National Institute on Drug Abuse had lifted its suspension of the certification of the contract lab being used to perform urine drug testing. This suspension and details of alternative testing arrangements are recorded in the second half of 1991 - Fitness For Duty Performance Data Report - Summary of Management Action. After this notification, testing was resumed with this lab. TU Electric felt compelled to review and consider alternatives to the arrangement with the current lab. It was determined that the problem was created due to the fact that the current lab had only one facility to conduct urine drug testing. With this in mind, it was determined that a multi-facility lab more appropriately meet the needs of TU Electric. After a review of several multi-facility laboratories, a conditional selection was made.

On April 20, 1992 the TU Electric Operations QA Manager notified the TU Electric Contracts Department that a pre-contract award inspection/audit of the lab selected had been performed. The report indicated that the operations at the lab was satisfactory for Fitness For Duty testing.

On May 11, 1992 USNRC Region IV was informed that TU Electric was in the process of awarding a contract to a multi-facility lab for urine drug testing.

On May 18, 1992 the new lab began urine drug testing for the Fitness For Duty Program.

On June 17, 1992 Random Drug/Alcohol Testing was conducted on the Night Shift. During this time, an individual produced a breath alcohol test result above the cut-off level. The result of the test were accurately recorded in the log, but no confirmation test was performed. The confirmation test was not performed because the Fitness For Duty Supervisor misunderstood the information provided by the lab technician that performed the test. The individual was allowed to return to work. The next day, the Fitness For Duty Supervisor realized the mistake and made TU Electric Management aware of the mistake. Appropriate corrective action was taken and NRC Region IV was informed of the incident and the corrective action taken. The inspector recommended the incident be included in the 6 month Fitness For Duty Performance Data - Summary of Management Action rather than as a 24 hour notification.
