

JUL 14 1992

DC 10

Docket No. 50-454  
Docket No. 50-455

Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Senior Vice President  
Opus West III  
1400 Opus Place  
Downers Grove, IL 60515

Dear Mr. Reed:

Thank you for Mr. T. K. Shuster's letter dated June 8, 1992, in response to our May 1, 1992 letter identifying a fitness-for-duty concern at the Byron Station (AMS RIII-92-A-0038).

In our letter, we requested that you determine if a contractor supervisor was reported as being under the influence of alcohol, and if so, if the provisions of your fitness-for-duty program were followed.

Your response indicated that the concern was not substantiated. This conclusion was based upon: (1) a telephone interview with the health physics foreman who supposedly was advised of the incident, but denied such an incident occurred; and (2) contacts with the contractor foreman's Senior Product Manager, the contractor's site manager, the contractor's backshift site manager, the contractor's resident engineer and the field engineer. None of the personnel had any knowledge of the identified contractor foreman being reported as under the influence of alcohol.

We found your investigation to be sufficient to support your conclusions and have no additional questions regarding this matter. We request that you retain the supporting documentation for your investigation of this issue for a minimum of one year from the date of this letter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.
