

November 30, 1983

Note to Dick Clark

SUBJECT: BROWNS FERRY 1 CORE RELOAD ... CYCLE 6 (Monthly Notice)
(OELD # 839 694)

The monthly notice is inadequate. The action taken (see the first paragraph of the SER) is to act only on a portion of the application request noticed in October 28, 1983. We are only acting on the core reload portion of the application. The other aspect, to reflect modifications made during the outage, is not being acted upon at this time. The monthly notice of action should make that clear that we're acting only on a part of the application noticed October 28, 1983.
