Note to E. Adensam

SUBJECT: SUMMER 1 NUCLEAR ORGANIZATION STRUCTURE

I agree with your note to me of October 19, that is, that the nature of the September 20 changes does not need re-notifying; however, that has to be written in something other than a note to me. The SER should indicate that the September 20 letter amended the earlier request to provide the modified titles, etc. Tell them what it did and explain why it had no affect on the information provided by the August 23 notice.
