Note to Bob Lee

SUBJECT: ARKANSAS 1 REVISION TO APPENDICES "A" AND "B" (841 550)

You can't make the two additional corrections. You can't amend the license in a way different than you noticed it. You did not notice those two miscellaneous amendments that correct old mistakes. Delete those two corrections from this package and renotice them. Issue a separate notice for those two corrected amendments. They should be fairly easy to do but you can't just insert them in a different package that you did not previously notice.
