Note to Ron Hernan

SUBJECT: CRYSTAL RIVER 3 - AUDIT FREQUENCY ... (OELD # 841 616)

The package is okay but the example is wrong. You use as the example justifying the change, example 1 of administrative changes. This change is much more than a minor administrative change. Its a major change in the frequency of audits. The better example to use, and the one used most often by others with these kinds of changes is example 7 - changes to make the license conform to changes in the Regulations. Its a much better example.
