Dear Mr. Fitzpatrick:

This refers to the inspection conducted by Mr. G. L. Pirtle of this office between September 17, 1991 and June 30, 1992. The inspection included a review of authorized activities for your D. C. Cook Nuclear Power Plant facility.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements. However, as described in the enclosed inspection report, you identified this violation. Additionally, the NRC is continuing to review deficiencies noted in a contractor health physics security screening program as noted in Section 3 of the Report Details.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.
