SUBJECT: ATTACHED SUSQUEHANNA AMENDMENT

I have reviewed the attached amendment package.

Before I can concur, we will also need an individual notice of issuance under 10 CFR § 2.106, which provides an opportunity for a hearing and public comment after the amendment is issued. See 10 CFR § 50.91(a)(5). This is in addition to the monthly Federal Register input, which you have provided.

Also, the Staff must make a final NSHC determination in the SER -- the SER as drafted does not do so, and in fact does not address NSHC at all. Accordingly, the conclusion on p. 2 of the SER should note a conclusion on NSHC as well as what is presently there. In addition, while the SER seems to imply that the tech spec changes are acceptable, it never says so explicitly, and it should.
