

August 23, 1983

Note to R. Goddard

SUBJECT: FITZPATRICK - SCRAM DISCHARGE VOLUME (OELD # 836 273)

Please check the Federal Register notice in this case. Was it a regular notice providing for 30 days' opportunity for hearing? If it was not a regular Sholly notice but one of the special notices, then the package needs additional findings to be legally correct. If it was an ordinary regular Sholly notice then the package's format looks appropriate. However, the package itself raises the question of the changes made after the Federal Register notice. I do not see where these changes are discussed, although they are mentioned in the cover letter. There needs to be sufficient discussion to explain why those changes do not adversely affect the adequacy of the initial Federal Register notice.

I assure we are still going to send this package to Jim Lieberman's people for their review.
