Gentlemen:

This acknowledges the receipt of your letter dated March 30, 1992, by which you transmitted Revision 18 to the South Texas Project Physical Security Plan for your facility.

We have reviewed the information contained in Revision 18 and determined that most of the changes are consistent with the provisions of 10 CFR 50.54(p). Accordingly, these changes are acceptable for inclusion into the plan.

However, as indicated in the attachment to this letter, other portions of Revision 18 appear to decrease plan effectiveness and are, therefore, inconsistent with the provisions of 10 CFR 50.54(p). Accordingly, you are to follow your previously approved plan in regards to these items. We have also identified other items that, as written, are unclear. Please resubmit a corrected plan in order to maintain continuity and clarification. Should you wish to pursue changing the physical security plan with respect to the changes set forth in the attachment concerning those decreased commitments, you should resubmit the plan under the provisions of 10 CFR 50.90.

Mr. R. Balcom of your staff was informed during a phone conversation with Mr. Dexter of this office on July 2, 1992, of our review of your plan changes and that this letter with the attachment would be forwarded.
