Note to Phil Polk

SUBJECT: INDIAN POINT 3 MANAGEMENT REORGANIZATION/AUDIT REPORTING REQUIRE-
MENTS (OELD # 836 436)

You have to give additional information about the changes in position of the various people. It is not enough to simply call them administrative changes. Give some indication that you reviewed them and that you conclude that they do not affect the technical or managerial organization of the licensee to operate the plant correctly. They have an employee who is "First Executive Vice President and Chief Development Officer" but I don't know what he does. And just by having this title doesn't tell me that he doesn't do something dramatic that affect the plant. Same for the new "First Executive Vice President and Chief Operations Officer". What do they do? Unless you indicate that you know from the incoming what they seem to do, what's your basis for assuming the change is merely administrative?
