DEC 31 1984

Carolina Power and Light Company  
ATTN: Mr. E. E. Utley  
Executive Vice President  
Power Supply and Engineering  
and Construction  
411 Fayetteville Street  
Raleigh, NC 27602

Gentlemen:

SUBJECT: REPORT NOS. 50-324/84-31 AND 50-325/84-31

On October 15 - November 30, 1984, NRC inspected activities authorized by NRC Operating License Nos. DPR-71 and DPR-62 for your Brunswick facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicated that certain activities violated NRC requirements and other activities appeared to be a deviation from a commitment to the NRC. The violations and deviations, with pertinent references and elements to be included in your response, are presented in the enclosed Notices.

Your attention is invited to an unresolved item identified in the inspection report. This matter will be pursued during future inspections.

In accordance with 10 CFR 2.790(a), a copy of this letter, its enclosures, and your reply will be placed in NRC's Public Document Room upon completion of our evaluation of the reply. If you wish to withhold information contained therein, please notify this office by telephone and include a written application to withhold information in your response. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

8503040191 850213  
PDR ADOCK 05000324  
Q PDR

John A. Olshinski, Director  
Division of Reactor Projects
