RE: In the Matter of Philadelphia Electric Company
(Limerick Generating Station, Units 1 and 2)
Docket Nos. 50-352, 50-353 and Graterford Inmates
Evacuation Plan *DL*

Dear Sir:

I am writing once again in reference to the Board's Order issued on February 8, 1985, entitled Order Setting Reply Date to Applicant's Motion for Exemption from the Requirements of 10 C.F.R. 50.47(a) and (b) as They Relate to the Necessity of Atomic Safety and Licensing Board Consideration of Evacuation Procedure Provisions of the Emergency Plan for the State Correctional Institute at Graterford. I at this time would like to withdraw my letter dated February 15, 1985, at which time I asked for an extension in which to answer the applicant's request for such an exemption. I mistakenly interpreted the Board's prior Order of February 8, 1985 and was unaware that a date has already been set upon which to file responses to the applicant's motion. I now am aware that March 18, 1985 is the date in which all motions will be due. I will comply with the Board's Order as written and respectfully request that the February 15th letter be disregarded and I apologize for this error.

Sincerely,

Angus R. Love, Esquire
