

ENCLOSURE 1

NOTICE OF VIOLATION

Carolina Power and Light Company  
H. B. Robinson 2

Docket No. 50-261  
License No. DPR-23

The following violation was identified during an inspection conducted on December 4-7, 1984. The Severity Level was assigned in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C).

10 CFR 50, Appendix B, Criterion XIII requires measures be established to control the handling, storage and preservation of materials and equipment in accordance with work and inspection procedures to prevent damage or deterioration. FSAR Section 1.8 - Regulatory Guide 1.38 requires that tapes and adhesive materials when used on austenitic stainless steel and nickel alloy materials, shall not be compounded from or treated with chemical compounds containing lead, zinc, copper, sulfur, or mercury or more than 0.1 percent (1,000 ppm) halogens where such elements are leachable or where they could be released by breakdown of the compounds under expected environmental conditions.

Contrary to the above, adequate measures were not established to control the preservation of austenitic stainless steel from contamination, in that Health Physics signs were applied to safety-related austenitic stainless steel piping without verification that the sign adhesive analysis was consistent with the licensee's Quality Assurance Program requirements.

This is a Severity Level V violation (Supplement I.E).

Pursuant to 10 CFR 2.201, you are required to submit to this office within 30 days of the date of this Notice, a written statement or explanation in reply, including: (1) admission or denial of the alleged violation; (2) the reasons for the violation if admitted; (3) the corrective steps which have been taken and the results achieved; (4) corrective steps which will be taken to avoid further violations; and (5) the date when full compliance will be achieved.

Security or safeguards information should be submitted as an enclosure to facilitate withholding it from public disclosure as required by 10 CFR 2.790(d) or 10 CFR 73.21.

Date: DEC 26 1984
